

Java Course Schedule

Topic	Sessions
Overview	Session 1
Basic Syntax	Session 2
Objects & Classes	Session 3-Session 4
Data Types & Variables	Session 5-Session 6
Operators	Session 7
Modifiers	Session 8
Decision Making	Session 9-Session 12
Loops	Session 13-Session 16
Number & Character Class	Session 17-Session 19
Strings	Session 19-Session 21
Arrays	Session 22-Session 26
Date & Time	Session 27
Functions	Session 28-Session 30
File Handling	Session 31-Session 32
Exceptions	Session 33
OOPs	Session 34-Session 36
Interface	Session 37
Package	Session 38
Thread	Session 39-Session 40

Introduction to Applets	Session 41-Session 42
Operator Precedence	Session 43
Call by Value/Call by Reference	Session 44-Session 45
